---

**Model of Care:** IM care is provided through a unique model of care with Internal Medicine hospitalist, Family Medicine hospitalist and Nurse Practitioner lead lines running daily. All lines run simultaneously and with their own MRP. The lines all collaborate daily to ensure the best care for patients.

**Support:** Hospitalists are supported by a team of health care providers that includes nurses, physiotherapists, occupational therapists, dietitians, social workers, pharmacists, respiratory technologists, personal support workers and a number of other highly-trained professionals.

**About Us:** Belleville, Ontario is located on the beautiful Bay of Quinte, nestled beside Prince Edward County on Lake Ontario, and is approximately 2.5 hours from Toronto, 3 hours from Ottawa, and 3 hours from Montreal.

Belleville General Hospital (BGH) is a busy community hospital that provides primary and secondary care, offering a full range of clinics, diagnostic services, support services, and outreach programs. BGH is the home of the Dr. Douglas A. MacIntosh Cancer Clinic, and the regional Intensive Care Unit
